Note: This file is a work in progress, as are most of the lineages on the Register. As such, it may contain omissions or errors. Always check all data, and use these files for a guide only. There is much more to this file, a large amount (References, Wills, Documentation, and later Generations) has been left out for space and privacy concerns.

Please contact me for further information, corrections, updates, etc. at the email link above. The entire file is HUGE! This file contains a number of links to photos of individuals named therein. If anyone has any more photos of Hyde relatives, I would really appreciate it if they could share a copy (either scanned, or hard copy) with me. I do have a few more, but for reasons of saving space on the server, have not included them here. Any of these photos, and anything else I have here, I will be pleased to share. If you have, or need further information on this family, or any branch of it, please contact me.

The Descendants of Thomas Hyde

Old family photos are fun! This photo shows some of my Great-Great Grand Father, Samuel Hyde's family. Left to right - "Bertie" Hyde 1868-1949 my G-G Aunt, wife of Fred Smallwood, "Joey" Smallwood (the last "Father of Confederation")'s uncle, George Byron Norton 1866-1949 my Great Grand Father, Matilda Adelaide Hyde 1864-1914 my G-G Aunt who married James D. MacMillan, Gertrude Penelope Hyde 1870-1943 my Great Grand Mother, wife of George BYRON Norton, and George Albert Moore, Samuel Hyde's adopted son. The Hyde family lived in Meadowbank, P.E.I., while Byron and his wife lived in Charlottetown. This is the same photo on the front page of the Register.

This is my line. Penelope (aka Penzie) married George BYRON Norton and had two children, Bernice, and Ethel. Bernice was my grandmother, and Ethel died suddenly of a brain hemorage while attending Acadia University. I have a very interesting diary of Byron's which runs from his marriage to Penzie till the day of Ethel's burial. The last entry was: "Sunday Mar 18th 1923, Buried our darling Ethel today". He never wrote again, leaving many blank pages in the book. Of course, I have complete information on this and most other lines to the present.

Many people that have helped with this lineage, and I wish I had the space here to thank them all. You know who you are, and you have my everlasting appreciation! Contributors who must receive special mention are Flossie Younker Hyde and Alice Fraser, both of whom provided much help and encouragement; also Anne Patterson Kearns for information on the Patterson descendants. Regretfully, Alice Fraser passed away at 85 in 1996. The full file has all sources entered, unfortunately, limited space here does not leave room for them. Most of this lineage is very well documented, particularly as far as my direct line is concerned, with wills, baptisms, the Hyde Family Bible, Birth and Marriage certificates, church records, etc.
